

## Pyramid Lake Fishing Permits Ordering Guide

The important point to remember when ordering Pyramid Lake fishing permits is that you must order the appropriate permit for the total number of days you plan to fish. Since the PFF fishout is two days, unless you're fishing additional days you should order a 2-day permit.

Here is a guide for ordering the online permits:

1. Start at the Sign In page for Native American Fish Applications <https://plpt.nagfa.net/online/>. Enter your name and birthdate and click the orange Continue button.
2. Unless you have used this site before and registered a PIN, enter your CA Driver's License Number.
3. At the "My Account" page, click the upper right orange button "Buy License".
4. Under License Information, from the pull downs select "Fishing" and "Nonmember 2 Day Adult (No Vendor Limit)". Click the orange button "Select Permit".
5. Click the space next to "Effective Date" and **select the first date of the fishout** as the date and click the orange button "Add Permit".
6. Click the orange "Next" button for checkout.
7. Enter your billing information and click the orange "Generate License" button.

Make sure you print your permits and bring them with you to the fishout!

**NOTE:** If you are fishing more days than just the PFF fishout, then select the appropriate number of permit(s) for your needs. There is no discount for a 2-day permit but there is a discount for a 3-day permit. You can purchase more than one permit at a time. (For example, if you are fishing a total of 5 days, you can purchase one 3-day and one 2-day permit, but be careful to enter the correct starting or effective first day for each permit.)

If you have any questions, please contact the PFF Fishmaster for your fishout.
